

KCSD 96 Approved Snack List

Our classrooms are free of the **Top 8 Allergens** (Milk, Eggs, Peanuts, Tree Nuts, Fish, Shellfish, Soy, and Wheat) and Gluten.

Dear Families:

We are excited to share the approved classroom snack list with all of you. This list has been carefully curated by staff and parent volunteers, taking into consideration your valuable feedback. Our aim is to provide a wide variety of snacks that are safe for all students.

One significant feature of this list is that it eliminates the top 8 allergens and gluten, making it a "win" for everyone! We prioritize the safety and well-being of all our students, and by removing these allergens, we can create a safer environment for everyone.

For daily snacks, excluding fruits and vegetables, we kindly request that all items be pre-packaged. This helps teachers easily check the snacks and ensure they comply with our safety standards.

We want to remind you to always check food labels for ingredients, as some items may change their ingredients unexpectedly. This step is crucial to safeguard the health of our students.

Please pay special attention to the brand of snacks you provide, as the packaging might look similar for many products. Using the approved snack list will help avoid any confusion and maintain consistency in our classrooms.

Lastly, we want to mention that each classroom might have its specific snack list. Please follow the classroom list if your child's teacher provides one.

Thank you all for your support in creating a safe and inclusive environment for our students. Together, we can ensure that all our children enjoy their snacks while staying healthy and happy in our classrooms!

Should you have questions about this list or District 96's food allergy management procedures, please contact:

Jennifer Dunne
Director of Student Services
